

Frequently Asked Questions

FAQ 10025 - What PSU do I need?

Use auto voltage ranging types where possible.

Pearl/Pearl Expert:

250 Watt ATX power supply (p/n 11-02-6001) or higher wattage if 250W not available

Note Boris 1 and 2 motherboards use the now obsolete AT style power supplies.

There are adaptors available to convert AT connections to ATX and vice versa.

Tiger:

250 Watt ATX (p/n 11-02-6001)

Azure:

(p/n 11-01-0070)

Please note that replacement PSU's for the Azure need to be modified with the following ECN

<http://www.avolites.org.uk/support/ecns/ecn-0099.htm>

Diamond 4:

Dual core Motherboards 250 Watt ATX

All previous motherboards 450 Watt ATX
