

D3 Touch.

DATASHEET.

Remotely trigger Titan from a reliable touchscreen.

Make Titan processing available from a touchscreen. D3 Touch is a pre-configured, installation touchscreen interface for Titan. It's designed for venues and installations where operators need simple, reliable access to key functions – from show playback to house light presets. Fully integrated with Titan, it's plug-and-play, responsive, and easy to use, even for non-technical staff.

Control surface.

INTERNAL SCREENS 1x 10", WXGA capacitive touchscreen
